

A level Biology Transition work 2021 – 2022

Please access the Biology summer learning work via the following link [Summer work to support Y12](#)

Make an account using any email address if you do not already have one. Work your way through as much of the material as time and your other commitments allows.

There will be a Baseline Assessment in September based on these GCSE topics set here, so any work you complete will help you to prepare.

If you have any questions please contact me via my e-mail: Shounsell@heckgrammar.co.uk

Have a good summer.

Dr Hounsell

Head of Biology.
