5	Job production, Batch production, Flow production		Summarize the main points

	<p><a href="#">UGD Apparel</a>, a functional fitness clothing company based in County Durham, kindly produced this <a href="#">short video</a> demonstrating how they have produced a new range of clothing by making use of surplus stock and giving them a second twist. Not only does this show job production in action but it is also a really interesting insight to see how small firms are making use of scarce resources in these challenging times. Many thanks to UGD Apparel for filming the stages involved and sharing!
