GRAMMAR SIXTH FORM

## A Level Results 2024

Congratulations to all our students on achieving outstanding A level results again this year.

As always the profile of our grades shows a very strong bias towards the upper range of grades. 85% of the A Level results were at grade C or better and 80% of these grades were either A\*, A or B.

There were 309 A\* and A grades altogether, including 54 students that achieved 3 or more grade A\* or A passes. Extra special mentions go to Christopher Drake, Ryan Heung, Rohan Patel, Harvey Swift and Beth Waterfield who achieved 4 A\* grades. Further congratulations go to Amaan Aslam, Amy Cross, Cerys Harrison, Elliot Hoyland, Matthew McCollam, Sam Sepehri, Syed Zulfiqar Shah and Adwait Upasani, who achieved an incredible A\* grade in their 3 A Level Subjects.

These superb results reflect the hard work and dedication of our students and staff, and will enable the students to take their next steps with confidence. The outcomes in terms of students being placed at universities and high calibre apprenticeships of their choice are exceptionally good this year.

My congratulations and well done to you all.
